

I700: Shaft bridge

Complete solution including gearing

- › Complete machining
- › Turning and gear cutting in one clamping
- › High accuracy due to manufacturing without reclamping
- › Gear hobbing of module 2, number of teeth 36 $l=92$

The complete solution including Toothing of the trunnions

The machine is equipped with 2 movable workpiece spindles. The two tool carriers can be moved over the complete length of the machine. The workpiece is placed on the workpiece supports, then automatically lifted and taken over by the spindles. The workpiece is completely turned and toothed in one set-up.

For the complete machining of the end tenons precision power chucks with retractable jaws are used.

Workpieces

Length [mm]	max. 3000
Diameter [mm]	70-450
Weight [kg]	300
Cycle [min.]	34

Features

OP 10

OP 20

Our service. Fast and competent – worldwide.

The satisfaction of our customers has a particularly high priority for us. That is why we attach great importance to agile and competent service that supports our customers quickly and effectively.

To achieve this, we quickly bring the specialists from our production in contact with your problem. If the problem cannot be solved by telephone analysis and consultation or remote access, we quickly organize an on-site intervention by our competent staff.

Our service for Machine tools

1. fast response
2. competent service
3. digital twin
4. remote access
5. worldwide resources of DVS Group

Our service for assemblies

1. fast reaction, also at your site
2. competent service
3. subsidiaries in USA and China
4. digital spindle profile
5. smart spindle chip - SSC

We train your employees

1. machine operation
2. mechanical maintenance
3. electrical maintenance
4. spindle repair
