

DVS TECHNOLOGY GROUP

The digital ecosystem

Take advantage of the possibilities of digitalization with our smart ecosystem - for more efficiency, transparency and simple processes. Discover DVS Connect and DVS Edge now!

DVS CONNECT

The DVS Connect digital customer portal is the central platform for accessing information and applications from the DVS TECHNOLOGY GROUP. It forms the heart of networking and integration and also provides access to support systems and expert applications. Above all, however, DVS Connect is a living system that is continuously improved and expanded.

DVS EDGE

Smart machines need a brain that lets them speak as the basis for all applications. This is exactly what DVS Edge does, combining data, machines and people into a self-learning system that works flexibly - online or offline, continuously or selectively.

DIGITAL SUPPORT VIA DVS CONNECT - YOUR BENEFITS AT A GLANCE

- Direct access to digital services and applications
- Overview of the entire machine fleet
- Free digital machine file for new machines
- Simple & fast fault reporting with data transfer
- Direct transmission of screenshots & images of the fault
- Qualified contact by DVS experts
- Overview of open support requests

OUR APPLICATIONS

DIGITAL MACHINE FILE

A complete overview of the machine documentation, always available digitally via DVS Connect.

HRI® SMART CONNECT

Measures vibrations, force and temperature for fault detection and can be used on the machine or at the workplace.

MACHINE INTEGRATION

Enables the integration of machines via standard protocols and proprietary MES and PDA interfaces.

TOOL MANAGEMENT

Provides an overview of tools and information on usage and reorders.
