

FULL TIME / ASSLAR

Trainee Electronics Technician (m/f/n)

BUDERUS Schleiftechnik GmbH is an internationally active mechanical engineering company in Aßlar in central Hesse. We are a member of the DVS TECHNOLOGY GROUP and one of the leading suppliers of precision machines for hard-fine machining of rotationally symmetrical components. We are one of the leading suppliers of precision machines for internal cylindrical grinding, external cylindrical grinding and thread grinding, as well as for the combination of these grinding technologies with hard turning. Our customers have been appreciating our products and the professionalism and know-how of our employees since 1949.

Your tasks, among others:

- + Planning subtasks and entire work processes in compliance with all specifications and the setting of priorities in the event of planning deviations
- + What to consider when calculating and measuring electrical quantities and how to test and evaluate control systems and regulations with regard to their function
- + How to use measuring instruments, the soldering iron and basic mechanical skills
- + Create production documents and document work processes
- + Troubleshooting of electronic equipment
- + Installing and configuring programs and operating systems

This is what you can look forward to:

- + A 3.5-year apprenticeship in which you learn the necessary tools of the trade
- + Dual training, during which you will spend two days in vocational school and three days in the company
- + Supporting factory instruction and accompanying courses

What we would like from you:

- + At least one good intermediate school leaving certificate
- + Interest in technical contexts and manual dexterity
- + Systematic and logical thinking as well as the concentration to work precisely on tasks
- + Motivation and commitment to tackle new, interesting activities and projects
- + Enjoy working in a team
