

FULL TIME / DIETZENBACH

Trainee in Controlling and Planning Company Group (m/f/n)

The DVS TECHNOLOGY GROUP unites leading specialist companies with one common idea: to machine surfaces in such a way that the challenges of the future can be met - both for classic and alternative drives as well as for general industry. We employ over 1,400 people worldwide and are one of the leading international system providers for machines, tools and production solutions. Wherever something moves in the future, we move the future with it. one group, one drive: shaping tomorrow - be a part of it.

Your tasks, among others:

- + Viewing and evaluating various data sources such as LucaNet Business Warehouse
- + Processing of the data and visualisation in a new, to be created, reporting system
- + Development of standard reporting for various KPIs such as stocks, incoming and outgoing deliveries, P&L development
- + Data analysis along the supply chains such as, for example from receivables and supplier durations and their changes
- + Analysis of capacities and demand volumes
- + Preparation of PowerPoint presentations and appointment coordination

Your profile:

- + Ongoing studies (at least 3 semesters) with an economic orientation, e.g. business administration, controlling, business informatics or industrial engineering
- + Knowledge of common MS Office programs; experience in working with financial performance management systems and ERP systems desirable
- + Quick comprehension and strong analytical thinking
- + Careful and accurate way of working
- + Very good written and spoken German and English skills
