## Working Student ERP Support and Process Digitalisation (m/f/n)

The DVS TECHNOLOGY GROUP unites leading specialist companies with one common idea: to machine surfaces in such a way that the challenges of the future can be met - both for classic and alternative drives as well as for general industry. We employ over 1,400 people worldwide and are one of the leading international system providers for machines, tools and production solutions. Wherever something moves in the future, we move the future with it. one group, one drive: shaping tomorrow - be a part of it.

### Your tasks, among others:

- ✚ As a working student, you will be involved as a full member in the day-to-day business of several projects with software and digitalisation
- ✚ In addition to working together with experienced team colleagues, you will also be given challenging tasks to do and solve them independently
- ✚ We offer you tasks from the most varied areas and process levels of our company through diverse and comprehensive projects

### Your profile:

- ✚ You are studying economics, (business) informatics, (business) engineering with a relevant focus or a comparable or a comparable course of study
- ✚ You are interested in or have experience in the areas of digitalisation, processes and business software and love working in interdisciplinary project teams
- ✚ Very good German and good English skills round off your profile
- ✚ Independence, reliability and a structured way of working

### This is what you can look forward to:

- ✚ Flexible working hours taking into account the requirements of your studies
