Machine Setter (m/f/n)

DVS Production South GmbH is an internationally active manufacturing company based in Kürnbach, Baden. As part of the DVS TECHNOLOGY GROUP, we are one of the most competent providers of classic contract manufacturing in Germany. Our core competence is the machining of precision components for all industrial applications. Thanks to our innovative production, based on Industry 4.0, we manufacture, for example, truck wheel hubs highly efficiently and almost fully automatically.

Your tasks, among others:

- + Set up and run in processing machines
- + Monitor ongoing production
- + Remedy process faults
- + Operating cutting machine tools
- + Instructing and training machine operators
- + Optimise machining processes with regard to quality safety and throughput times

Your profile:

- + Technical training in metal processing, e.g. as a cutting mechanic, industrial mechanic or a comparable training with corresponding qualification
- + Experience in turning and milling technology is an advantage
- + Ideally professional experience in machining or mechanical series production
- + Working with Siemens (840D) and Mazatrol controls desirable
- + Technical understanding and practical skills
- + Willingness to work, ability to work in a team and flexibility
- + Willingness to work shifts
