

FULL TIME / KÜRNBACH

Quality Management Officer (m/f/n)

DVS Production South GmbH is an internationally active manufacturing company based in Kürnbach, Baden. As part of the DVS TECHNOLOGY GROUP, we are one of the most competent providers of classic contract manufacturing in Germany. Our core competence is the machining of precision components for all industrial applications. Thanks to our innovative production, based on Industry 4.0, we manufacture, for example, truck wheel hubs highly efficiently and almost fully automatically.

Your tasks, among others:

- + Maintenance, further development and monitoring of the QM system according to IATF16949 / DIN ISO 9001 / EN ISO 14001
- + Organising and coordinating certifications and internal audits
- + Carrying out instructions in all QM and quality assurance relevant subject areas
- + Handling quality issues (FMEA, APQP, PPAP) in the project and series phase
- + Carrying out product and process approvals as well as initial sample inspections
- + Defect analysis and risk assessment
- + Processing external complaints
- + Ensuring document control

Your profile:

- + Successfully completed further training as a master craftsman/technician with a focus on production technology, manufacturing technology or machining or a comparable qualification
- + Several years of professional experience
- + Experience in the area of quality management, especially IATF 169649 advantageous
- + Confident appearance, assertiveness and organisational strength, as well as high resilience and a hands-on style of working round off your profile
