

FULL TIME / SINSHEIM & KÜRNACH

Apprentice Industrial Mechanic/ Industrial Mechatronics Technician (m/f/n)

The training will take place at two locations and therefore offers a lot of variety. You will mainly complete the practical part at our partner company Werkzeugmaschinenbau Sinsheim GmbH. WMS will be your official trainer. You will be accompanied by experienced colleagues and learn everything you need to know about our production and machines.

We are looking for you from 01.09.2022

This is what you will learn with us:

- + Practical and theoretical expertise in mechanics and metalworking, as well as control, regulation and drive technology
- + Maintenance, servicing and repair of complex mechanisms of the various technical installations
- + Optimising electrotechnical systems
- + Knowledge of mechanical components

What you bring:

- + A good school leaving certificate
- + Interest in mathematics and technology
- + Motivation, willingness and commitment
- + Ability to combine theoretical and practical knowledge
- + Flexibility und mobility

This is what we offer:

- + 3.5-year dual training with the possibility of being taken on
- + Comprehensive supervision by training officers from the various departments
- + A challenging and varied apprenticeship with prospects for the future
- + 30 days holiday
