

FULL TIME / BAD CAMBERG

Electronics Technician Automation Technology (m/f/n)

rbc robotics GmbH, based in Bad Camberg, is part of the DVS Technology Group. From its headquarters there, around 50 employees develop and produce robot modules and automation solutions for the global market. We develop, design and implement innovative, intelligent robot solutions and thus have our finger on the industry's pulse.

Your tasks, among others:

- ✚ Assembly, installation and commissioning of our systems and equipment (mechanical, electrical and pneumatic)
- ✚ Confident and experienced understanding and processing of electrical documentation, drawings, circuit diagrams and revision plans
- ✚ Knowledge of SPS control and troubleshooting
- ✚ Monitoring of production processes, elimination of system downtimes, as well as service and maintenance work at our customers' sites
- ✚ Training of operators on our systems and plants
- ✚ Optional: knowledge of creating fault diagnoses in the TIA portal

Your profile:

- ✚ Completed training as an automation technician, electrician, electronics technician, mechatronics technician or comparable qualifications
- ✚ Knowledge of troubleshooting on automation systems and practical experience with industrial and plant engineering / electrical installation
- ✚ Willingness to travel (approx. 50%. Driving licence class B)
- ✚ Friendly, confident and competent appearance
- ✚ Open-minded attitude towards permanent process optimisation

What we offer:

- ✚ Many challenging tasks
- ✚ Security through a permanent job
- ✚ Varied activities with sustainable further training opportunities
- ✚ National and international business trips
- ✚ A flexible working time model
- ✚ A committed and helpful team
